Belt Driven Compressor Pumps

Model: BDCP-1002

Category: Centrifugal Monoblock Pumps

Brand: Metro ProTools

SKU: PT-BDCP-1002

Overview

Belt Driven Compressor Pumps are engineered for continuous-duty compressed air applications where durability, efficiency, and high performance are essential. Featuring a belt-driven mechanism, these pumps operate at lower RPMs, resulting in reduced wear, quieter operation, and extended service life. They are ideal for powering pneumatic tools, workshops, manufacturing units, service stations, and industrial facilities.

Key Specifications

Material: Heavy Duty Cast Iron

Unit of Measure: Piece

Minimum Order Quantity: 1 Unit

Warranty: 12 Months

Certifications: ISO 9001, CE Certified

Country of Origin: India

Key Features

- Heavy-duty cast iron construction for long service life
- Belt-driven mechanism reduces motor load and wear
- Low RPM operation for enhanced durability
- High air delivery with improved efficiency
- Low vibration and quieter operation
- Excellent heat dissipation for continuous performance
